ABSTRACT

The Rubbish App (TRA) streamlines household waste management by providing timely reminders for bin collection day. Whether you live alone or share a house, TRA eliminates the need to rely on neighbours' cues or family members reminding you at the last minute. With TRA, you can stay on top of your bin duties effortlessly.

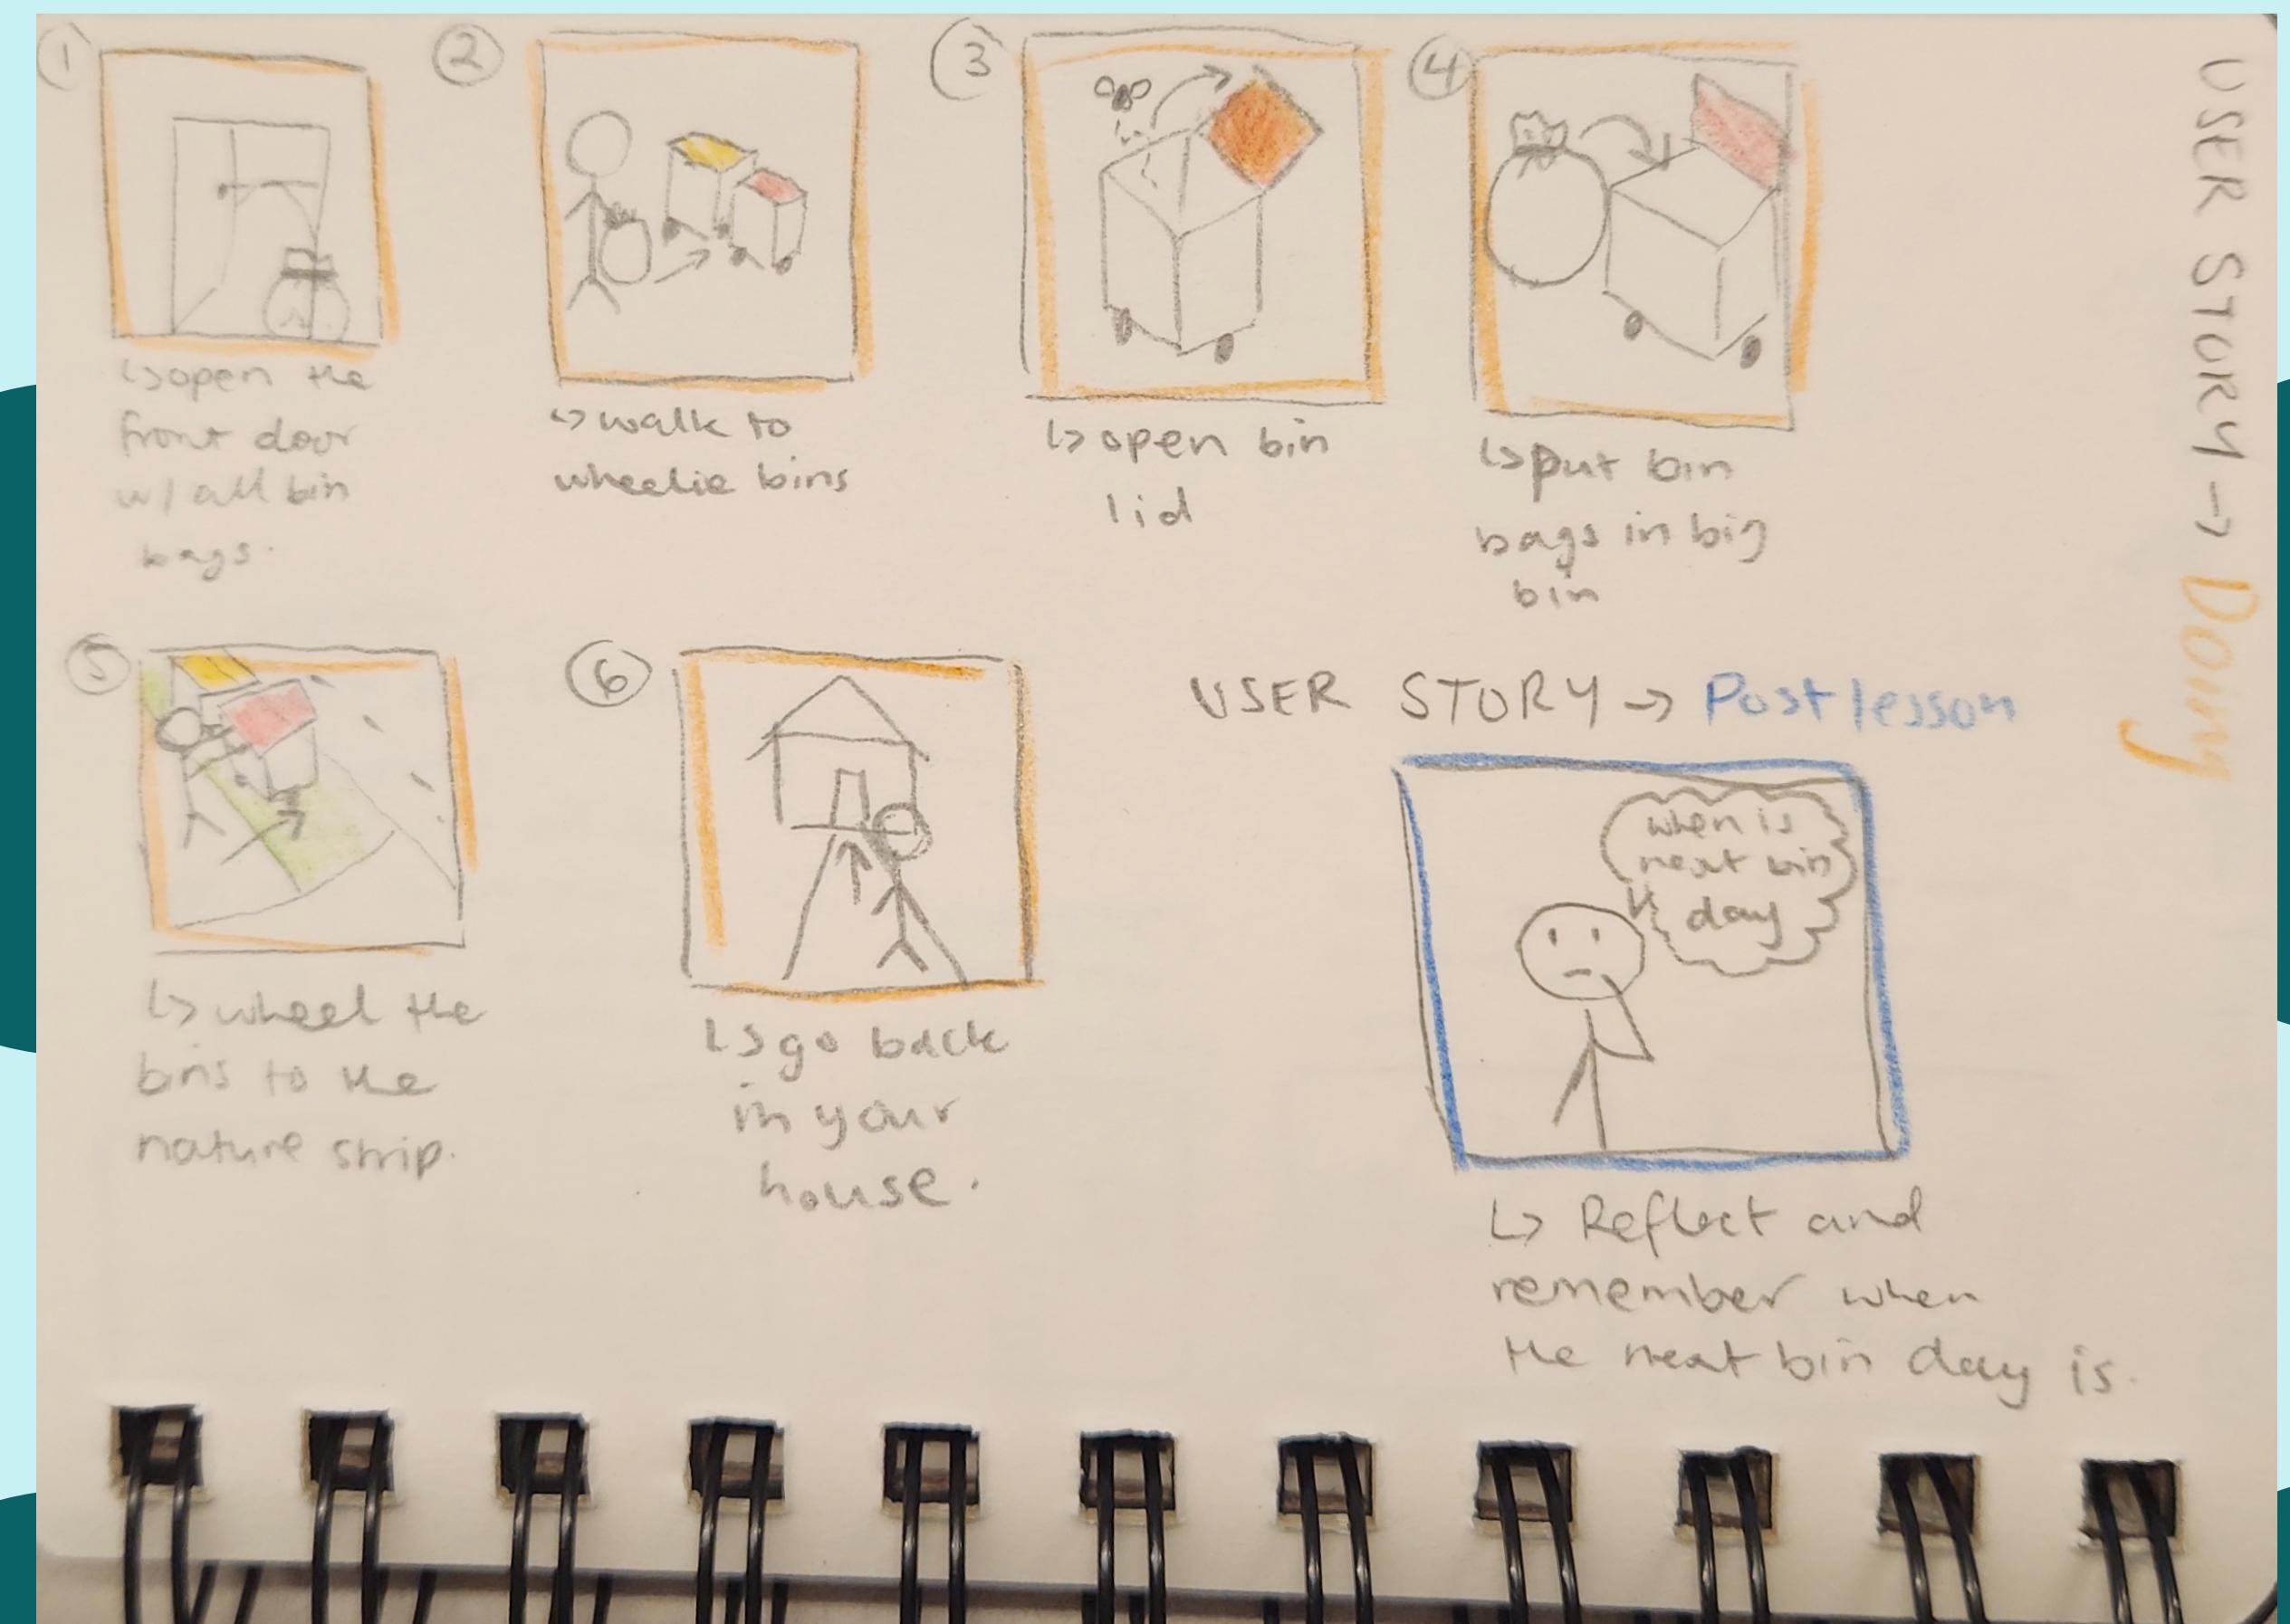

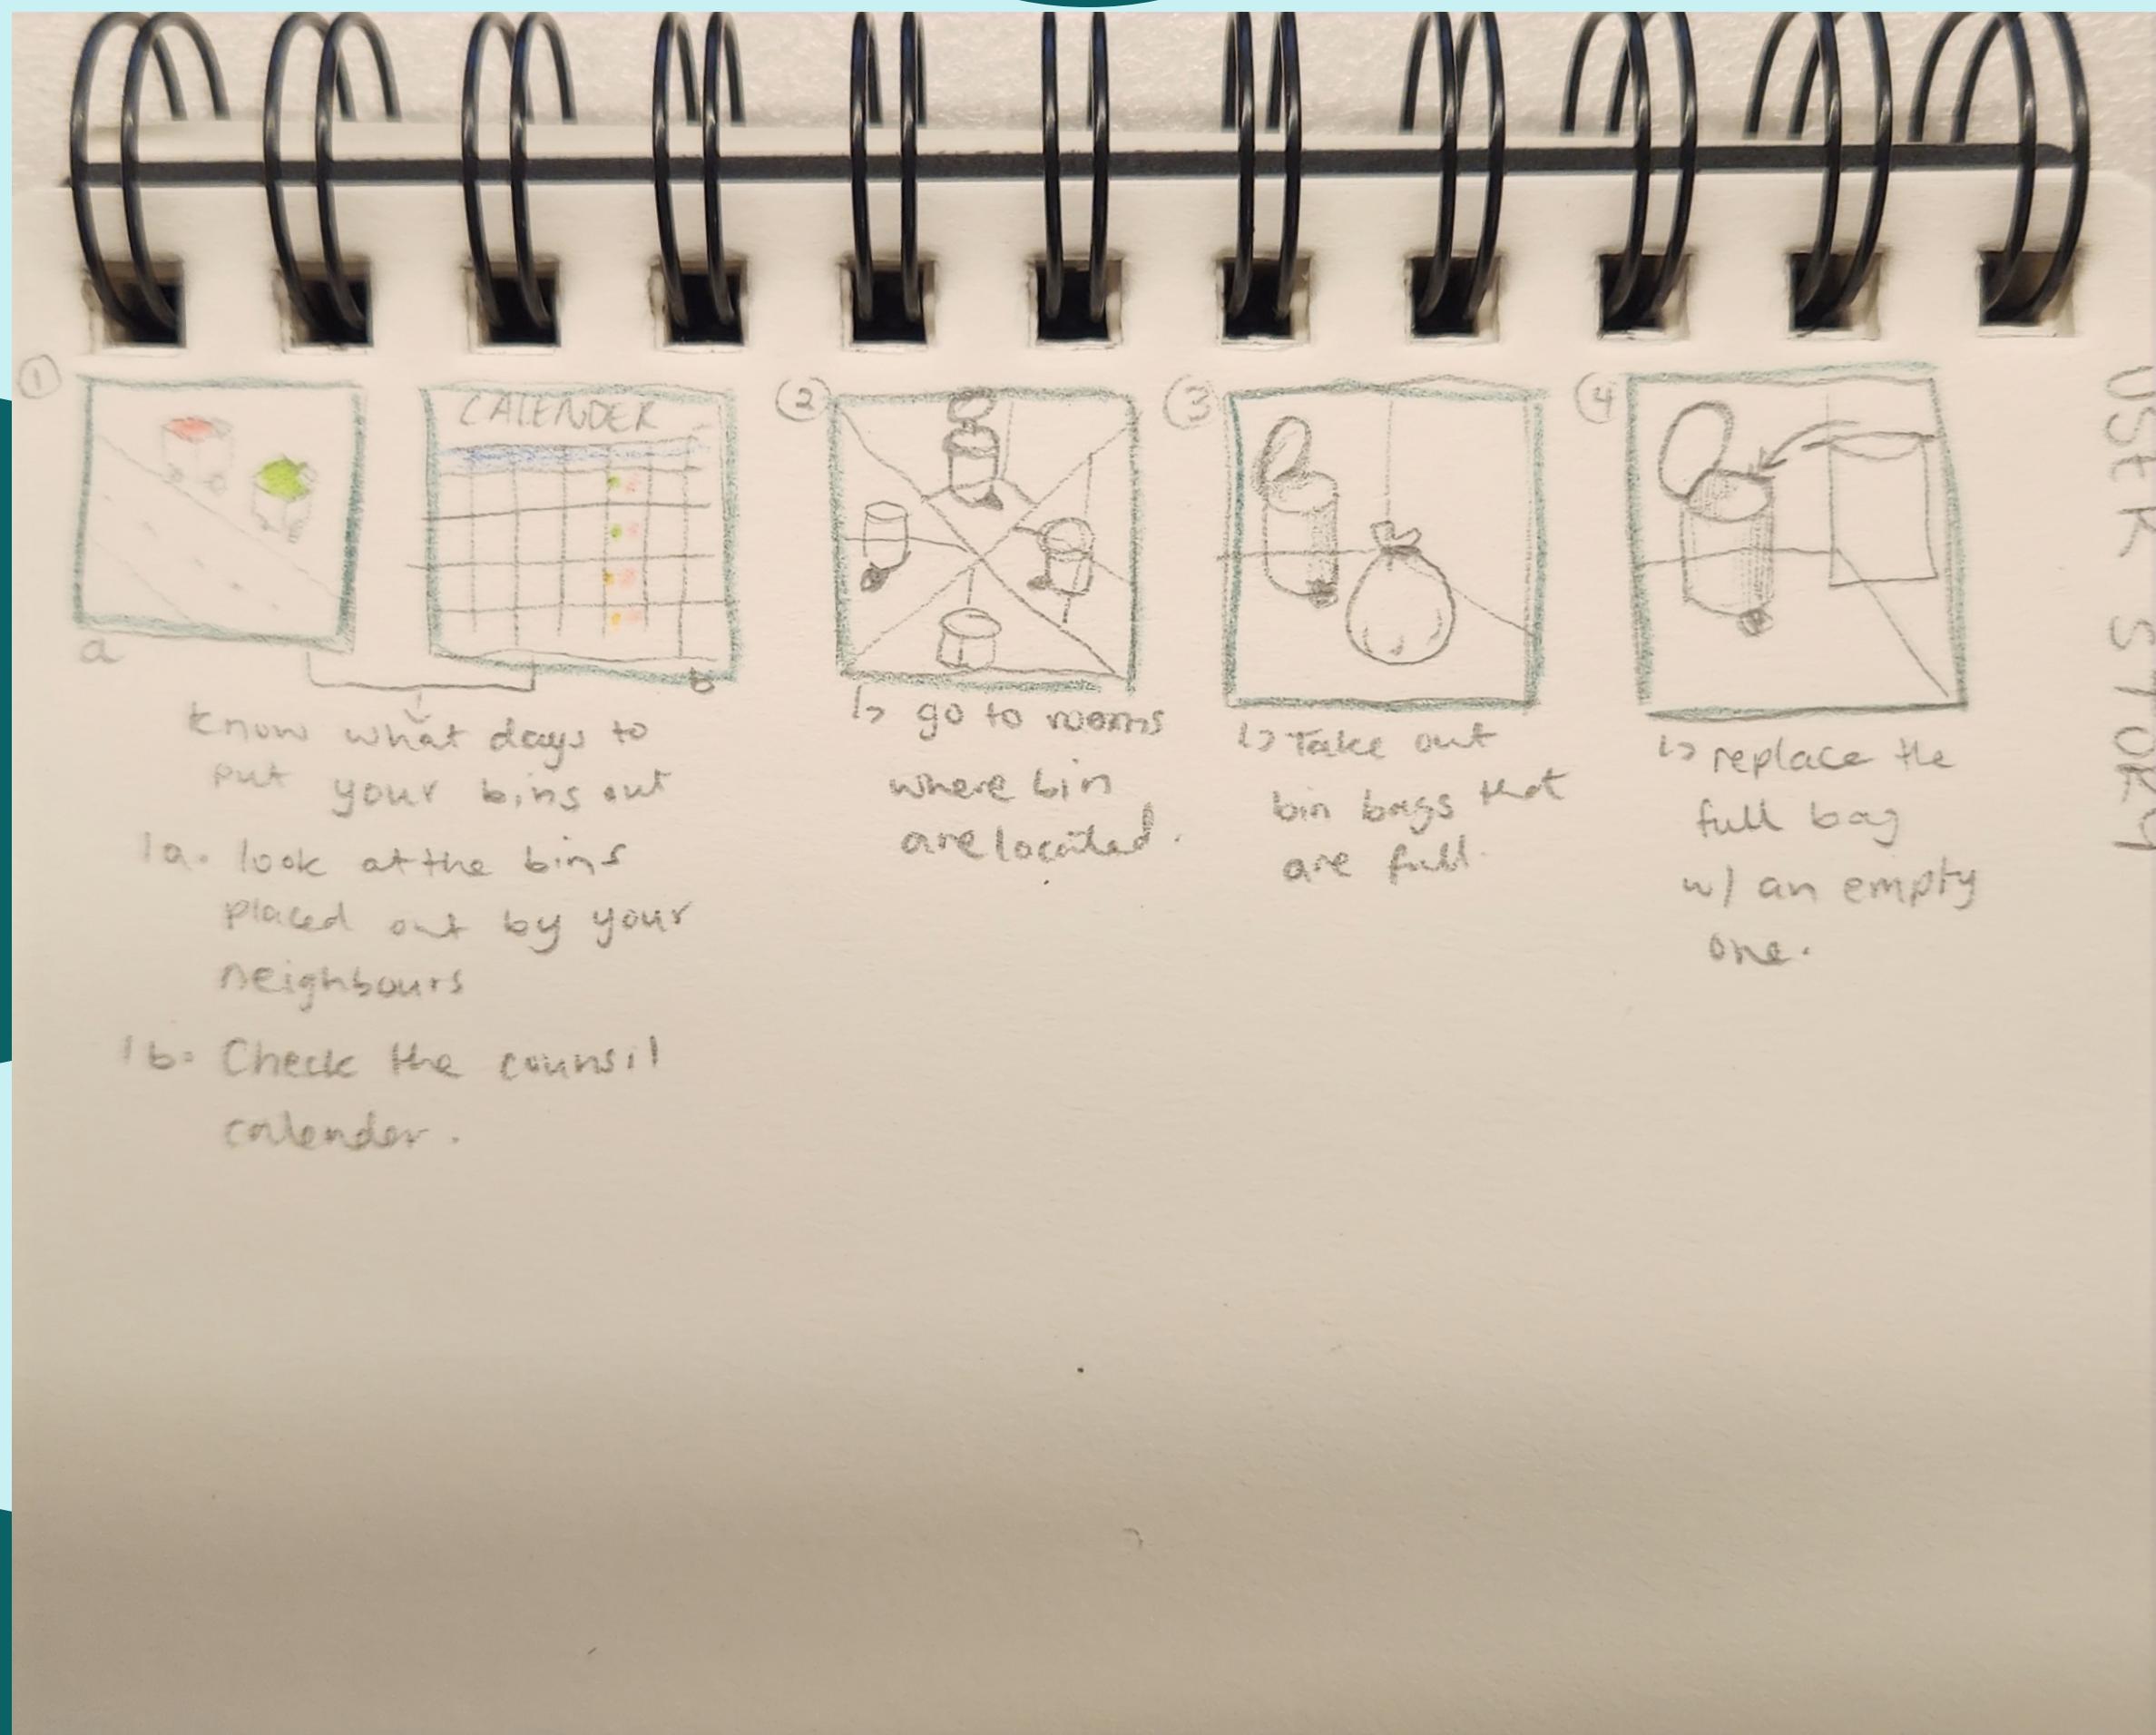

The app allows you to create a household group and randomly assigns responsibilities for taking the bins out, ensuring everyone knows who is responsible each week. It sends notifications to remind housemates when it's time to put the bins out, making sure no one misses a collection day. Additionally, TRA offers useful guidelines on what items go into each bin, with information customised to your local council's recycling and waste management rules. This localised advice helps reduce confusion, improve recycling efforts, and keep your household running smoothly—one collection day at a time.
